Re: 99-25, Notice of Proposed Rulemaking on Low Power FM

Dear Commissioners:

Please give Low Power FM stations "primary status." Why are the important services that they provide less significant than the market driven agendas of big commercial stations? Let's add more flexibility to rules restricting the extent to which LPFM station boards can change during the period of application. And please extend LPFM construction permits beyond the present 18 month limit to three years.

Thank you for considering these important issues.
